Want to get ahead in your career?

Want access to the most up-to-date research in your field?

Get your master's degree in Manufacturing Systems Engineering from the University of Kentucky ENTIRELY ONLINE!*
Competitive markets require manufacturing organizations to be increasingly efficient, innovative and sustainable. Highly skilled manufacturing engineers with advanced technical knowledge and capabilities are essential to the success of these organizations.

Start advancing your career today!

The Manufacturing Systems Engineering Master’s Program at the University of Kentucky has been developed to produce manufacturing engineers equipped with the knowledge, skills and attitude required to design, manufacture and manage sustainable products, processes and systems.

The Manufacturing Systems Engineering (MFS) Program is a multi-disciplinary program that involves world-renowned faculty specializing in machining, brazing, welding, sustainable manufacturing, lean manufacturing and sustainable supply chains. You will have the opportunity to receive a dynamic education experience delivered by experts in mechanical engineering, electrical engineering, computer engineering, chemical engineering, materials engineering, UK’s Institute for Sustainable Manufacturing and UK’s College of Business and Economics.

Plus, for the first time, the entire master’s degree in manufacturing systems engineering will be available ONLINE.

Tailor the selection of technical electives to your particular areas of interest and participate in numerous industry projects with local manufacturing companies to gain first-hand experience in the application of concepts learned in class.

In addition, you can choose between a thesis option (eight courses plus thesis = 30 credit hours) and a project option (10 courses plus three credit hour project).

For more information and to find out about the application process:
• visit [www.engr.uky.edu/mfs](http://www.engr.uky.edu/mfs)
• contact Peter Hayman at [859.257.6336, ext. 80611](tel:859.257.6336, ext. 80611) or [pwha222@uky.edu](mailto:pwha222@uky.edu), or
• contact Professor Fazleena Badurdeen, Director of Graduate Studies for Manufacturing Systems Engineering, at [badurdeen@uky.edu](mailto:badurdeen@uky.edu).

### CORE COURSES

<table>
<thead>
<tr>
<th>Modeling of Manufacturing Processes and Machines</th>
<th>Systems for Factory Information and Control</th>
<th>Organizational Behavior</th>
<th>Manufacturing Seminar/Project</th>
</tr>
</thead>
</table>

### Other Courses Available

<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Operations Management in Lean Manufacturing</td>
<td>Chemical and Physical Processing of Polymer Systems</td>
<td>Simulation of Industrial Production Systems</td>
<td>Systems Thinking for Sustainability</td>
</tr>
<tr>
<td>Analysis of Metal-Cutting Processes</td>
<td>Nontraditional Manufacturing Processes</td>
<td>Leadership for a Lean System</td>
<td>Organizational Learning for Lean Manufacturing</td>
</tr>
<tr>
<td>Special Problems in Manufacturing Systems Engineering</td>
<td>Management for a Lean System</td>
<td>Quality Control</td>
<td></td>
</tr>
</tbody>
</table>
