

E-Day 2012

UNIVERSITY OF KENTUCKY
COLLEGE OF ENGINEERING
PADUCAH CAMPUS

What is Engineers Day?

This 13th annual event is for elementary, middle and high school students to help build enthusiasm about the field of engineering.

Throughout the day, several contests will take place to help build an understanding of what engineers do.

Favorites are the egg drop competition and the popsicle-stick bridge competition. Some of these contests take preparation, while others, such as the edible car competition, can be prepared during the day.

There are also facility tours, demonstrations and more.
