

## **TASK 9: PROJECT EVALUATION (DUE 19<sup>th</sup> and 21<sup>st</sup> of APRIL)**

In this task, you will be asked to prepare a *brief formal presentation* of your design project. Unlike Task 8, it is compulsory for you to present using PowerPoint slides, or any other methods that will aid your presentation, e.g., transparencies. You will be graded individually, similar to Task 8, so make sure that you fully understand your project responsibilities. Your total grade will be based on these few aspects:

- Your progress, i.e., how much you have accomplished so far and what has been done since the previous task (Task 8). What is in store for the upcoming days before the ECE competition?
- How well you prepare your presentation, i.e., how much effort you put towards this task.
- Your presentation skills; so try to explain your part as clearly as possible and be organized.

The timeslot for each group is analogous to that of Task 8, so if your group is scheduled for Tuesday, then your presentation is on the 19<sup>th</sup> and if it's on Thursday last week, then your project evaluation will be on the 21<sup>st</sup>. Good luck!

Note: We will bring a laptop but it is probably a better idea to have your own.
