

ECE SENIOR DESIGN PRESENTATIONS

**FRIDAY OF DEAD WEEK
APRIL 29, 2005**

**COMMON AREA OF
RALPH G. ANDERSON
BUILDING**

WHAT IS SENIOR DESIGN DAY?

Senior Design day is an opportunity for ECE students to show off their engineering skills and ideas. Besides senior design projects, other undergraduate and graduate students are also encouraged to bring their own projects (actual gadgets) /poster boards for presentation. These projects may include independent studies and/or thesis research. The format is open and informal and participants are welcome to present anywhere in the timeframe of **1:00pm to 4:00pm**. Prior to that, project setup can be done at **noon**. Judging will be performed between **1:00** and **3:00pm** and winners will be announced around **3:30 pm**.

List of senior design projects for Spring 2005 semester

- Inflatable Wing Aircraft (Big Blue III)
- Autonomous Airplane (Big Blue III)
- IEEE Robot
- Golf Hole Audio Guide
- Cypress Semiconductor Lab Automation
- Hybrid Wildcat
- Controller for an Adaptive Multi-source Hybrid System
